

OUR VISION

Hilcorp was founded in 1989 with the vision of being the premier independent energy company in America. Today, it is the largest privately owned oil and natural gas producer in the country.

Hilcorp acquires conventional oil and gas assets, enhances production, and improves efficiency and safety. We optimize these assets by leveraging our teams' operational expertise, modern technology, innovation, and commitment to safety and environmental responsibility. While energy is our product, our greatest resource is our people. With nearly 3,200 dedicated professionals, we strive to achieve these goals by improving every day, in all aspects of business.
