PENNSYLVANIA AND OHIO

OUR VISION

Hilcorp was founded in 1989 with the vision of being the premier independent energy company in America. Today, it is the largest privately owned oil and natural gas producer in the country.

Hilcorp acquires conventional oil and gas assets, enhances production, and improves efficiency and safety. We optimize these assets by leveraging our teams' operational expertise, modern technology, innovation, and commitment to safety and environmental responsibility. Two-thirds of Hilcorp employees are field employees—well beyond industry averages. Every employee has a direct stake in the company's performance. Our model aims to have all of our nearly 3,000 focused on acting like an owner.
